

We would like to inform you about opportunities to participate in the International Summer School of Drawing, organized by the Department of Landscape and garden architecture, the Czech Agricultural University in Prague.

It focuses on drawing in a plein air, which is mainly planted in gardens, urban spaces and corners of the historical core of Prague.

Draw is open to beginners and advanced students of thematically related universities.

Students participating countries will work in national groups of about 10 students. Any foreign groups will have its own teacher who will correct the students in the outdoors.
